

¿ How to Report Reusable Packaging?

Key Concepts

Packaging will be considered reusable if it is part of a closed-loop system that meets the conditions established by legislation:

- A company or a group of cooperating companies owns the reusable packaging.
- The packaging is circulated by a company or a group of cooperating companies.
- The design of the packaging is agreed upon according to mutually acceptable specifications.
- The packaging is used in accordance with mutually acceptable specifications.
- Systems for collection, reconditioning, and redistribution are available.
- Packaging materials that are no longer reusable and must be removed from the system must be recoverable in accordance with the requirements of one or more of the following standards: EN 13430, EN 13431, or EN 13432.
- The company or group of companies is obligated to accept reusable packaging if it has been used in accordance with the established specifications.
- The filler/packager/distributor provides information on how to handle and where to deposit the packaging for reuse.
- A usage control system based on specifications ensures its reuse.

Parameters Required in the Declaration:

NOTE: REUSE SYSTEMS AND WASTE CONDITION

- Type of packaging
- Material
- Unit weight
- Format total sales: This refers to the number of uses that have been made of the reusable containers. *Ex: a bottle of beer, the total number of sales made of the bottle,*

refilled n times, this is used to theoretically take out the park and is a data that we understand that the companies have.

- Replenishment of the parquet: It is contributed economically for the containers that are incorporated into the park. The total park is a voluntary field.
- Pool size
- Rotations per year
- Average lifespan

Packaging that is reused but does not meet these requirements will be considered single-use packaging and will be subject to the corresponding fee based on the (commercial or industrial) stream and material composition. The company will only declare as single-use packaging those that it acquires, whether new or used.

Deadline for Declaration Submission: February 28, 2025

We are here to support you throughout this process. If you have any questions, please contact us at info@procircular.es, your account manager, or through our website: www.procircular.es.

**Sincerely,
The Procircular Team**
