EPR Household Packaging rates 2027

The system contribution values are calculated considering the costs generated by the management of household packaging put on the market by producers. Included in these costs are different variables that can attenuate or increase the result of the rates, such as operational costs, types of materials and quantities managed, packaging subject to specific requirements such as single-use plastic packaging (SUP).... As a result of these variables the current rates are defined as follows:

Table of Household Packaging EPR rates 2027

Materials	Neutral Value (€ / Kg) (NV)	Value + 1 Bonus	Value + 2 Bonuses	Penalized Value
Steel (beverage cans)	0,197			
Steel (other packaging)	0,197			
Aluminium (beverage cans)	0,040			
Aluminium (other packaging)	0,040			
PET Bottles ≤3L SUP (excl. dairy and vegetable drinks)	0,276	VN - 0.43%	VN - 0.86%	VN + 10%
PET Other bottles	0,267	VN - 0.43%	VN - 0.86%	VN + 10%
PET Other bottles SUP	0,276	VN - 0.43%	VN - 0.86%	VN + 10%
PET Trays	0,678	VN – 3.3%	VN – 6.6%	VN + 10%
PET SUP Trays	0,684	VN – 3.3%	VN – 6.6%	VN + 10%
PET other rigid items	0,678	VN - 0.43%	VN - 0.86%	VN + 10%
PET other rigid SUP items	0,684	VN - 0.43%	VN - 0.86%	VN + 10%
HDPE Rigid body	0,279	VN - 1.6%	VN – 3.2%	VN + 10%
HDPE Rigid body SUP	0,286	VN - 1.6%	VN – 3.2%	VN + 10%
Other rigid plastics*	0,773	VN - 3.86%	VN - 7.72%	VN + 10%
Other rigid plastics SUP*	0,777	VN - 3.86%	VN - 7.72%	VN + 10%
Plastic and flexible film**	1,269	VN – 2.19%	VN – 4.38%	VN + 10%
Plastic and flexible film SUP**	1,280	VN – 2.19%	VN – 4.38%	VN + 10%
Plastic and flexible film: UNE bags**	0,530	VN – 2.19%	VN – 4.38%	VN + 10%
Compostable packaging	0,205			
Compostable packaging SUP	0,216			
Brik-like packaging	0,533			
Brik-like packaging SUP	0,544			
Paper and cardboard	0,117			VN + 10%
Paper and cardboard SUP (with plastic content)	0,126			VN + 10%
Ceramic	0,011			
Wood and cork	0,030			
Other materials***	1,243			

SUP: Packaging affected by the SUP (*Single Use Plastic*) Directive EU 2019/94
*Other rigid plastics: includes rigid PP, rigid PS, rigid PVC, rigid EPS and other rigid plastics
** Film and flexible plastics: include flexible PET, flexible LDPE, flexible HDPE, flexible PP, flexible EPS and other flexible plastics
***Other materials: This section will contain all those materials that do not appear in any specific group.

Glass	Neutral Value	Value + 1 Penalty	Value + 2 Penalties	Value + 3 Penalties
Number of containers (No.) + Weight in kg (Kg)	(N°*0,00529)+ (Kg*0,03728)	NV + 50%	NV + 100%	NV + 150%

BONUSES AND PENALTIES

The Royal Decree of Packaging and Packaging Waste 1055/2023 and the new European Regulation of Packaging (7894/24), point out the need of systems of modulation in the contributions to the PROS. Ecomodulation is the mechanism designed for it and it consists on a readjustment of the contributions oriented to promote good practice standards in the packaging design, such so that we can improve both their recyclability and the quality of the recycled material plus stimulate the content of recycled materials in packaging.

The recyclability of a container and the quality of the material that we will get as result of the the recycling process will be determined by its behavior in the delivery phases in the containers, collection and transportation, selection in the plant and subsequent recycling. This way, the attributes of packaging that facilitate and improve these aspects are enhanced through bonuses and those which obstruct the process are penalized. The analyzed packaging characteristics are separately accounted as shown by:

- Color
- If the container is composed by a multimaterial
- Size of the labels and its material (≥2/3 of surface of the container)
- Combination of items that accompany the main container
- Percentage of post-consumer recycled material incorporate

For PET NON-Tray Fraction:

Factor	Bonuses	Neutral Value :	Penalties :
Color	Transparent/ light blue	White and Non-opaque colors	Opaque (Except white)
Multimaterial		Monomaterial without EVOH or with EVOH <5%	Mono or Multimaterial with EVOH >=5%, Multimaterial without EVOH or with EVOH <5%
Label (≥2/3 of the container surface)		PET and NON-PET labels forced removal or zipper with legend*	Labels made of NON-PET (except for forced removal or zipper with legend*)
Elements that accompany the packaging		Accessories NOT PVC, rubber, silicone, or metals**	PVC, rubber, silicone or metal accessories**
% Post-consumer recycled material	>25%	≤25%	

* Caption: "separate me" or any other equivalent that promotes separation or withdrawal.
** Exceptions for PVC, rubbers, silicones or metals if they are:
- Forced withdrawal elements or,
- Elements that are removed for consumption of the product with legend*

For Fraction PET-Tray :

Factor	Bonuses :	Neutral :	Penalties :
Color		Transparent	Color and/or opaque
Multimaterial	Monomaterial		Multimaterial
Label (≥2/3 of the container surface)		PET and NON-PET labels for forced removal or zipper with legend*	NON-PET labels (except for forced removal or zipper with legend*)
Elements that accompany the packaging		Accessories NO PVC, or rubber, no silicones, no metals**	PVC, rubber, silicone or metal accessories**
% Post-consumer recycled material	>25%	≤ 25%	

* Caption: "separate me" or any other equivalent that promotes separation or withdrawal.
** Exceptions for PVC, rubbers, silicones or metals if they are:
- Forced withdrawal elements or,
- Elements that are removed for consumption of the product with legend*.

For HDPE Fraction:

Factor	Bonuses:	Neutral:	Penalties:
Color	White / Natural	Rest of colors	Black (with carbon black)
Multimaterial		Monomaterial without EVOH or with EVOH <5%	Mono or Multimaterial with EVOH >=5% Multimaterial without EVOH or with EVOH <5%
Label (≥2/3 of the container surface)		PE and NON-PE labels for forced removal or zipper with legend*	NO PE labels (except those with forced removal or zipper with legend*)
Elements that accompany the packaging		Accessories NO PVC, rubber, silicone, or metals**	PVC, rubber, silicone or metal accessories**
% Post-consumer recycled material	>20%	≤20%	

* Caption: "separate me" or any other equivalent that promotes separation or withdrawal.
** Exceptions for PVC, rubbers, silicones or metals if they are:
- Forced withdrawal elements or,
- Elements that are removed for consumption of the product with legend*.

For Flexible Plastic Fraction:

Factor	Bonuses:	Neutral:	Penalties:
Color	Natural Transparent	Rest of colors	Black (with carbon black)
Multimaterial		Monomaterial without EVOH or with EVOH <5%	Mono or Multimaterial with EVOH ≥5% Multimaterial without EVOH or with EVOH <5%
Label (≥2/3 of the container surface)			
Elements that accompany the packaging		Accessories NO PVC, rubber, silicone, or metals**	PVC*, rubber, silicone or metal accessories**
% Post-consumer recycled material	> 20% UNE Bags > 50%	≤ 20% UNE bags ≤ 50%	

* If the main element is made of PVC, PVC accessories would not be penalized.
** Exceptions for PVC, rubbers, silicones or metals if they are:
- Forced withdrawal elements or,
- Elements that are removed for consumption of the product with legend
